Subject: RAI Amendment Letter dtd 1/15/2013

The licensee was called to request additional information regarding the subject amendment request letter. The RSO stated that they spoke with the NRC Fees office and that they have decided to terminate the license. He said they do not conduct licensed activities in NRC jurisdiction at this time and have not since 2011. I requested the licensee submit a letter requesting the subject letter be voided, and requesting that the license be terminated instead. I discussed the requirements for licensing or reciprocity if future work is to be conducted in exclusive Federal jurisdiction. The RSO said he understood the requirements. The RSO stated that the licensee does not store licensed material in NRC jurisdiction and that all sources are leak tested at the required intervals and no leaking sources have ever been identified. The RSO said he had already spoken to another license reviewer in RI about this. I asked that he forward the letter. He said he would send it within 24 hrs.
