Re: Request for License Amendment

Dear mister Lodhi:

On Friday February 15, 2013 the US Bankruptcy Court (USBC) for the District of Puerto Rico held an auction of laboratory and field equipment that included four nuclear gauges (see attached document). The gauge descriptions were not included in the document. Reportedly, three of the gauges were from CPN International, Inc. and one from Humboldt, Inc. Our firm won the auction and for this reason we are applying for an Amendment to our License No. 52-25266-01 to be able to incorporate and transport the four auctioned gauges to our facilities.

In like manner, we are requesting to correct a typing error in the address of our facilities. The correct address is Urb. Reparto Landrau, Carr. 21 # 1413, San Juan, PR. In addition, we recently had to change the name of our company from Geo-Engineering, Inc. to Geo Engineering, LLC due to a new Puerto Rico law for engineering firms.

We appreciate your help on these matters.

Cordially,  
**GEO** Engineering
