Dear Mr. Schmitt:

In an NRC Form 314 "Certificate of Disposition" dated December 10, 2012 (with attachments), and letters dated October 29, 2012, January 11, 2013 (with attachments) and January 29, 2013 (with attachments), you requested the termination of License Number 21-32444-01MD.

The NRC staff has reviewed your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has either been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 21-32444-01MD is hereby terminated in the enclosed Amendment No. 04.

If you have any questions, you may contact me directly at (630) 829-9841 and my fax number is (630) 515-1078. My email address is colleen.casey@nrc.gov.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".
