Subject: RE: Fermi Open Items Meeting (Public Teleconference) - Questions on Fukushima Order

Mr. Keegan:

Foundation and Soil Structure Interaction are covered under Fukushima Recommendation 2.1 as well as the Fermi Chapter 3.7 and 3.8 FSAR review. RAIs on this topic have been sent to the applicant under RAI letter number 79. We expect supplemental final responses for these RAIs on September 30, 2013, in which all responses will be made publicly available. RAI Letter number 79 can be obtained on the NRC public website.

If you have any additional questions, please email me directly.

Thanks
Tekia Govan

Dear Tekia Govan,

Per your request, I am emailing you my information request pertaining to Fukushima Orders.

Under what portion of the Fukushima Order do Foundation and Soil Structure Analysis concerns get addressed with respect to Seismic Qualification and potential for liquefaction? What RAI addresses these concerns?
Could you please direct me to that documentation?

Thank you

Michael J. Keegan
