Subject: Salem Hope Creek Emergency Plan Evacuation Time Estimate

Pursuant to part 50.4 of Title 10 of the Code of Federal Regulations, PSEG Nuclear LLC (PSEG) hereby submits the Salem - Hope Creek evacuation time estimate (ETE) analysis. This study is submitted in accordance with the requirements of Section IV of Appendix E to 10 CFR 50 to submit an updated study "within 365 days of the later of the date of the availability of the most recent decennial census data from the U.S. Census Bureau or December 23, 2011."

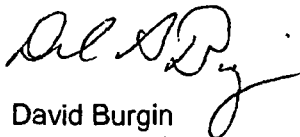

As part of this submittal please find one attachment and one enclosure. The 10 CFR 50.54(q) Summary Analysis Report, document 2012-35, is attached. Enclosure 1 is the full Salem-Hope Creek ETE study.

There are no regulatory commitments contained in this submittal. The Salem - Hope Creek ETE study submittal is made as required by regulation. This study provides the methods used to derive calculated time for public evacuation. This study is not an implementing procedure or a plan commitment, but provides an important part of the bases for development of protective action recommendations.
