Subject: Support Emergency Planning Petition

As the wife of a retired nuclear physicist, whose supervisor at Three Mile Island was on-site when that occurred, I can name a significant number of scientists who no longer support nuclear energy as a reliable power source. Once out, the genie can not be put back in the bottle.

I wish to become a co-petitioner on the Petition for Rulemaking submitted February 15, 2012 by Public Citizen, Nuclear Information and Resource Service and 36 other organizations.

This petition would make substantial and necessary improvements in the Nuclear Regulatory Commission's emergency planning regulations.

Please inform me when this petition is docketed for public comment. Thank you.

Sincerely,

Taylor Teegarden
