RE: RSO/Authorized User Amendment

Dear Jon:

Enclosed please find the letter to the NRC for the addition and removal of the Radiation Safety Officer and authorized users to your NRC license. The following steps need to be taken for completion.

1. Review carefully and be sure all information is correct. Retype or copy the cover letter to the NRC and the Letter of Understanding onto your facility letterhead.
2. Have executive management sign the letter to the NRC and the RSO/Executive Management Letter of Understanding.
3. Make two (2) copies of the letter to the NRC, the Letter of Understanding and the explanation of availability letter. These will go to the NRC. **Keep the originals and file in the blue, MPC, license binder in the nuclear medicine department.**
5. Mail both sets of the signed copies to the following address: **Federal Express or U.P.S. is advised.**

Re: Amendment NRC License No. 21-32215-01
Levan Internists, P.C.

ATTN: To Whom It May Concern:

We would like to amend our license to reflect the following changes.

- 1) Please amend our license to remove Abhinav Raina, M.D, as authorized user and Radiation Safety Officer for 10 CFR 35.200 from our license.
- 2) Please amend our license to add Laura M. Luna, BS. as Radiation Safety Officer for Levan Internists, PC. She is currently RSO at NRC license # 21-32228-02. Please see the attached letter explaining availability and ability to perform RSO duties at this facility.
- 3) We are also requesting the addition of authorized users Bradley L. Hubbard, MD, Roy H. Misirliyan, MD, Tauqir Y. Goraya, MD, and Giridhar Vedala, MD for 35.200 to our license. These authorized users are currently listed as authorized users for NRC license #21-26399-01.

Thank you for your cooperation with this matter. If you have any questions or require additional information please contact our physics consultant, Laura M. Luna, at (734) 662-3197.

Re: Radiation Safety Officer / Executive Management
Letter of Understanding

Dear Ms. Luna:

You have been appointed the Radiation Safety Officer (RSO) of this facility for our United States Nuclear Regulatory Commission Materials License. This "Letter of Understanding" is prepared to comply with Title 10 Code of Federal Regulations (CFR) Part 35.24(b). This section of the regulations requires that you agree in writing to the following:

- Assume responsibility for implementing the Radiation Protection Program
- Ensure that radiation safety activities are being performed in accordance with our own approved procedures and all regulatory requirements.

Furthermore, in compliance with 10 CFR 35.24(e),(g), the executive management of this facility agrees to provide you as RSO:

- Specific written notation of your authority, duties and responsibilities, see attached.
- Sufficient authority, organizational freedom, time, resources and management prerogative to:
 1. Identify radiation safety problems;
 2. Initiate, recommend, or provide corrective actions;
 3. Stop unsafe operations; and,
 4. Verify implementation of corrective actions.

Our signatures noted below will attest to the issues noted above. Please make a copy of this document for your files and return the original to my attention.

Sincerely,

Babu Jarodiya

RE: RSO Availability and Ability to Perform Duties

To Whom It May Concern:

Please find the information listed below concerning my availability and ability to perform RSO duties at this facility.

Item #1: My position at Medical Physics Consultants allows me adequate time and flexibility to address both my contractual and regulatory obligations to any facility that I am currently listed as the Radiation Safety Officer.

The position of Radiation Safety Officer is what we are contracted for by these facilities. All facilities have a signed contract by both them and Medical Physics Consultants. These contracts clearly outline both my responsibilities and the facilities. All facilities have also signed a RSO / Management Agreement form which has been forwarded to the NRC in all applications and / or amendments.

I have over 25 years of experience in Nuclear Medicine. This is my livelihood and my occupation.

Item #2: The amount of time for me to respond to an emergency involving radioactive material will vary depending upon my activities that day. Typically I would be able to respond immediately by phone. All facilities have both my cell phone and office phone numbers. The office staff at Medical Physics Consultants has a copy of my daily schedule at all times. The staff has phone numbers to any location that I might be working.

Medical Physics Consultants has an answering service that operates 24 hours a day, 7 days a week, 365 days a year. They have phone numbers for my home, cell and office. If for some reason they are not able to contact me, they have a list of other physicists that are employed by Medical Physics Consultants to contact. These individuals are board certified physicists with a great deal of expertise. This same mechanism has been in place for years whenever one of our facilities is in need of immediate expertise and advice. If we are contacted for a radiological emergency we direct the account to notify the appropriate management individual.

We audit the program quarterly, any unsafe practices or incidents are reported to management in writing. Items of significant concern are always reported to management verbally in addition to the written documentation.

Item #3: The amount of time that I will spend at this facility will vary. Time will depend upon the status of the Radiation Protection Program and other variables. As stated above quarterly reports are sent to management.

If you have any questions or if I may be of assistance, please contact me by phone at (734) 662-3197 or by e-mail at lluna@mpcphysics.com.
