REMARKS: IP 71003, "Post-Approval Site Inspection for License Renewal," has been revised to separate the objectives (the inspection of changes to commitments, changes to the UFSAR supplement, and changes to license conditions against applicable requirements). The revision also includes a description of inspection phases, guidance on how to select license conditions, commitments, AMPs, and TLAs for inspection, as well as definitions for obligations, commitments and licensing basis documents. In addition, the wording for resources estimates has been revised, as well as the table of information for relicensed plants. The procedure sections have also been reformatted.

TI 2600/017, "Review of the Implementation of the Decommissioning Planning Rule". This TI was created to provide inspection guidance related to inspection of licensees' implementation processes and procedures for the Decommissioning Planning Rule that added 10 CFR 20.1406(c) and revised 10 CFR 20,1501(a) and 20.1501(b).
