

NOTE TO: FILE

DOCKET NO: 71-9148

SUBJECT: 2/12/13, 2:00PM, CONFERENCE CALL WITH QSA GLOBAL, INC. TO DISCUSS WELDING REPAIR QUESTIONS ON THE MODEL NO. 770 TRANSPORTATION PACKAGE

Participants:	<u>NRC/NMSS/SFST</u>	<u>QSA GLOBAL, INC.</u>
	David Tarantino	Lori Podolak
	Huda Akhavannik	Mike Fuller

Staff and QSA Global, Inc. (QSA) discussed weld repair concerns on Note 2 to Drawing No. R77090 for the Model No. 770 transportation package. Staff had questions regarding the amount of detail in the note, as this package has already been fabricated and will require weld maintenance as specified in NUREG-1886 "Joint Canada – United States Guide for Approval of Type B(U) and Fissile Material Transportation Packages." Staff believed that the note did not adequately specify the standards for the weld repairs. In response, QSA provided example wording in the Model No. 680-OP transportation package where this specification is made in Drawing No. R68090. Staff said they would review the note in the Model No. 680-OP and contact QSA again with their thoughts on the level of specificity.
