Re: Inactivation of Sealed Source and Device Registrations

Dear Ms. Kime:

Please find enclosed a compact disc containing several Sealed Source and Device Registrations that have either been inactivated or amended for correct information. They are scanned versions of the original signed documents. All of the registrations should be incorporated into the device registry as inactive.

Please contact me with any questions or concerns at (303) 691-4931 or meganm.brown@state.co.us.
