OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Mr. Jenkins:

SUBJECT: HISTORIC PROPERTIES ON PORTIONS OF THE HYDRO RESOURCES, INC.
URANIUM MINING PROJECT AREAS

Dear Ms. Jenkins:

As indicated in the enclosed letter to Dr. Sebastian, dated May 20, 1998, the U.S. Nuclear Regulatory Commission (NRC) staff is consulting with the New Mexico State Historic Preservation Officer (SHPO) pursuant to the National Historic Preservation Act (NHPA). The consultation regards a portion of the proposed Hydro Resources, Incorporated (HRI) uranium mining project located in Sections 8 and 17 (T16N, R16W) about seven miles north of Church Rock, New Mexico; and Section 12 (T17N, R13W), located about two miles north of Crownpoint, New Mexico. NHPA Section 106 and the regulations through which it is implemented (36 CFR 800) require federal agencies to take into account the effects of undertakings on any historic properties eligible for or listed in the *National Register of Historic Places*.

As documented in the Museum of New Mexico's Office of Archaeological Studies report (OAS Report), a copy of which was previously sent to you for review, historic properties eligible for inclusion in the *National Register* were found in Section 8 (T16N, R16W) and Section 12 (T17N, R13W). No such properties were found on Section 17 (T16N, R16W). No traditional cultural properties were identified at or near any of these project areas. As discussed more fully in the enclosed letter to Dr. Sebastian, the NRC staff proposes to determine that any HRI undertakings on Sections 8 and 12, as described above, would have no effect on the historic properties located there.

The NRC staff will consider any written comments you submit within 15 days of your receipt of this letter with respect to its proposed determination of no effect.

The NRC staff is also consulting with Dr. Alan Downer, the Director of the Navajo Nation Historic Preservation Department, as reflected in the enclosed letter to him dated May 20, 1998. This consultation regards the above-described Section 17, on which no historic properties eligible for inclusion in the *National Register* were found. Regarding this finding, the NRC staff will consider any written comments you submit within 15 days of your receipt of this letter.

-2-

You previously have expressed concerns about protection of archaeological sites over the duration of the project, about identifying traditional cultural properties, and about the treatment and disposition of human remains and associated funerary objects and sacred objects. As stated in the OAS Report, historic properties will be protected by fencing throughout the duration of HRI's project. We believe that the fencing as described in the OAS Report adequately addresses your previously-stated concerns. Please note that discovery of human remains, should this occur during HRI's project, will be addressed as necessary through the implementation procedures of the Native American Graves Protection and Repatriation Act.

If you have any questions, please contact Mr. Robert Carlson, NRC's Project Manager of the HRI mining project, at (301) 415-8165.

Sincerely,

Joseph J. Holonich, Chief
Uranium Recovery Branch
Division of Waste Management
