**To:** RulemakingComments Resource  
**Subject:** Support Emergency Planning Petition

I'm an engineer living with my family of four in the Rochester, NY, area.

As an engineer, I well understand how poorly we understand complex systems, and how easy it is to overlook the possibility of a low-probability event, and especially combinations of low-probability events, like those that lead to the Fukushima meltdowns.

I wish to become a co-petitioner on the Petition for Rulemaking submitted February 15, 2012 by Public Citizen, Nuclear Information and Resource Service and 36 other organizations.

This petition would make substantial and necessary improvements in the Nuclear Regulatory Commission's emergency planning regulations.

Please inform me when this petition is docketed for public comment. Thank you.

Sincerely,

Mike Rudnick
