Docket: NRC-2012-0246

Consideration on Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Comment On: NRC-2012-0246-0001

Consideration of Environmental Impacts of Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Document: NRC-2012-0246-DRAFT-0140

Comment on FR Doc # 2012-26295

Submitter Information

10/25/2012

77FR65137

Name: Sara Angst

Address:

268 W. Country Walk Drive
Round Lake Beach, IL, 60073

343

General Comment

"The NRC must change its nuclear reactor licensing process to require an individual Environmental Impact Statement for each site determining the impact of creating and storing radioactive waste on each reactor site. The health and safety effects on communities and the environment in proximity to each site needs to be carefully considered individually before granting new licenses and relicensing mature reactors. The 'waste confidence' rule must be abolished as a tool for licensing nuclear reactors."
