Advisory Committee on Reactor Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

SUBJECT: REPORT ON THE SAFETY ASPECTS OF THE LICENSE RENEWAL
APPLICATION FOR THE LIMERICK GENERATING STATION

Dear Mr. Stetkar:

On behalf of the U.S. Nuclear Regulatory Commission, I am responding to your letter to Chairman Allison Macfarlane dated February 14, 2013, in which the Advisory Committee on Reactor Safeguards (ACRS) discussed completion of its review of the license renewal application for the Limerick Generating Station. On the basis of the ACRS' agreement that there are no issues that preclude renewal of the operating licenses and that the applicant has established and committed to aging management programs, the ACRS recommended renewal of the operating licenses.

I appreciate the ACRS's thorough review of the license renewal application for Limerick Generating Station and the associated final safety evaluation report prepared by the staff. Thank you and the members of the ACRS for your continued commitment to safety.

Sincerely,
