Karen,

I was assigned to review this for DILR. I have reviewed and only have one comment. There is a listing of the RSLOs in the appendices, but there is no discussion or reference to who they are (or even what the acronym stands for) in the procedure itself. I'd suggest in the body of the procedure, including a brief explanation of what an RSLO is and mention that they're different positions than the RSAOs (just one or two sentences).

Thanks for the opportunity to review and consideration of this comment.

(Alison – this completes this item assigned to me. Let me know if I need to forward this to anyone else to close the ticket).

Thanks

June
