Dear Mr. Kovach:

**SUBJECT:** RESPONSE TO GENERIC LETTER 91-13, "REQUEST FOR INFORMATION RELATED TO THE RESOLUTION OF GENERIC ISSUE 130, 'ESSENTIAL SERVICE WATER SYSTEM FAILURES AT MULTI-UNIT SITES,' PURSUANT TO 10 CFR 50.54(f)" (TAC NOS. M81167, M81168, M81169, AND M81170)

On September 19, 1991, the NRC issued Generic Letter (GL) 91-13 which contained the staff resolution of Generic Issue 130. The GL required that the applicable facilities review the recommended Technical Specification (TS) and procedure improvements discussed in the GL and review the applicability and safety significance of these improvements for their facility. Each licensee or applicant was requested to state whether the proposed TS changes are applicable to their facility, and whether they will commit to the improvements.

By letter dated March 16, 1992, you responded to the GL. You indicated that the issues were applicable to the Byron and Braidwood facilities, that Byron Station had previously adopted appropriate TSs, and that Braidwood Station will request a license amendment to add TS controls identical to Byron. In addition, the emergency procedure improvements recommended in the GL had, for the most part, already been implemented. The staff has reviewed your response and finds that it meets the reporting requirements set forth in GL 91-13. This completes the staff's activities on TAC Nos. M81167, M81168, M81169, and M81170.

Sincerely,

Original signed by:

John B. Hickman, Project Manager
