Subject: Additional information for amendment request

(NOTE: This will be used as the
Documents Title in ADAMS)

NRC staff contacted the licensee to clarify the following information provided in an amendment request dated December 27, 2012:

1. The letter indicated that the licensee would like to remove a location of use at 701 Foulk Road, Suite 100, Wilmington, DE 19801. I informed Mr. Gunkel that they have a similar address currently listed on the license but it is in Suite 1A (also on the letter head) and not Suite 100. Mr. Gunkel stated that this was a typographical error and confirmed that the location to be removed is the location that is currently on the license, 701 Foulk Road, Suite 1A, Wilmington, DE.
2. The letter indicated that they have a new billing address. I asked Mr. Gunkel if they would like to change their mailing address to match their billing address. Mr. Gunkel stated that he would like to keep the mailing address as is currently listed on the license.
3. The attached area survey and wipe test log sheet indicated a calibration date of 01/16/1998 for the instrumentation (well counter) used. I inquired about the calibration date. Mr. Gunkel stated that this is an error and believes the date to be that when it was first calibrated, and will have to return the facility to get the most recent and accurate calibration date. He agreed to provide a response by COB tomorrow, February 26, 2013.
