Dear Secretary,

I wish to become a co-petitioner on the Petition for Rulemaking submitted February 15, 2012 by Nuclear Information and Resource Service and 37 other organizations.

This petition would make substantial and necessary improvements in the NRC's emergency planning regulations.

Please inform me when this petition is docketed for public comment.

Thank you. Please no more subsidies for nuclear power. Japan has done the research for us on the damage to power stations caused by long term radiation. The tremendous amount of waste heat, killing marine life, waste disposal problems and security issues are not overcome by a new nuclear power plant design.

Yours truly,
Wallace H. McCurdy, Jr.
