21 February 2013

Document no.: UNC-13-0130
Your reference: Docket 70-7024

Subject: changes in address and OODEP

Dear Madame, Sir,

Please find attached the updated OODEP form, with recent changes in the "Owners, Officers, Directors and Executive Personnel" for the Central Office of Enrichment Technology US, Inc., a non-possessing facility.

With the delay in EREF and the relocation of some former EREF personnel back to the UUSA project the Shipp Street office in Hobbs became under-utilized, reason why we decided to move to a smaller location per February 15, thereby saving considerable cost. As a result of the Fukushima incident and the general economic situation ETC is facing some downsizing globally.

Both Darrel Smith and Jim Fry have been relocated to the UUSA project, indefinitely or at least for the long term. This implies that I cannot maintain them on the OODEP as this would be seen as a conflict of interest between the two shareholders/customers. Don Allen remains as FSO.

In case of questions, please contact Piet van der Heide at 575-393-4521 or 575-602-0449.

Yours sincerely,
Enrichment Technology US, Inc.

Piet van der Heide
Director Security & Regulatory Affairs
