Docket No. 40-3392; License No. SUB-526

SUBJECT: Honeywell Metropolis Works Emergency Response Plan Update

Pursuant to the requirements set forth by 10 CFR 40.35(f), Honeywell Metropolis Works hereby submits the updated portion of the Honeywell Metropolis Works Emergency Response Plan (ERP) made effective on 09.04.2012.

According to 10 CFR 40.35(f), "the licensee may change the plan without Commission approval, if the changes do not decrease the effectiveness of the plan." These ERP changes were evaluated using Honeywell's configuration management process as not requiring prior NRC approval for the reason that they do not decrease the effectiveness of the Plan.

As required by Section 7.1 of the ERP, the Plan was submitted to the local ESDA Coordinator and IEMA for comments for a period of 60 days. Since no comments were received from these agencies, there are no comments included in this submittal.

Pursuant to the procedures set forth in NRC Regulatory Issue Summary 2005-31 pertaining to submitting security-related sensitive information, the enclosed submitted herewith shall be withheld under 10 CFR 2.390 as security-related sensitive information.

If you or your staff have any questions or require further information, please contact Bob Stokes, Regulatory Affairs Manager and Radiation Protection Manager, at (618) 524-6341.

Sincerely,

Larry A. Smith
Plant Manager
