The Honorable Barbara Boxer
Chairman, Committee on Environment
and Public Works
United States Senate
Washington, DC 20510

Dear Madam Chairman:

The U.S. Nuclear Regulatory Commission (NRC) intends to publish a proposed rule in the *Federal Register* that would amend its regulations for the packaging and transportation of radioactive material. These amendments, developed in consultation with the U.S. Department of Transportation (DOT), would make NRC regulations compatible with the recent revisions to the International Atomic Energy Agency standards for the safe transport of radioactive material, and would maintain consistency with DOT regulations. The proposed amendments would also make the regulation of quality assurance programs more efficient and further clarify the responsibilities of general licensees.

Sincerely,

/RA/

Rebecca L. Schmidt, Director
Office of Congressional Affairs
