Commissioners:

Chairwoman Allison M. Macfarlane
Commissioner Kristine L. Svinicki
Commissioner William D. Magwood IV
Commissioner William C. Ostendorf
Commissioner George Apostolakis

We urge you, the Commissioners of the Nuclear Regulatory Commission, to affirm the NRC staff's post-Fukushima recommendation to require engineered radiation filters on hardened containment vents at all 31 GE Mark I and Mark II nuclear reactors in the U.S. The health and welfare of New England residents who would be affected by catastrophic releases from Vermont Yankee or Pilgrim nuclear generating stations (as well as the public at 29 other Mark I and Mark II units) are more important than any costs associated with the overdue upgrades to these inherently inadequate and failure prone reactor containment systems.

PLEASE DO SO IMMEDIATELY

Thank You

Barbara and Bruce Cole Wilmington Vermont
