APPROVED BY OMB: NO. 3150-0038

EXPIRES: 01/31/2015

**REGISTRATION CERTIFICATE -- in vitro TESTING
WITH BYPRODUCT MATERIAL UNDER
GENERAL LICENSE**

Estimated burden per response to comply with this mandatory collection request is 8 minutes. The validated registration serves as evidence to suppliers of byproduct material that the registrant is entitled to receive the byproduct material. Send comments regarding burden estimates to the Information Services Branch (1-5 F53) U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to info.comments.resolutions@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NECB-10202, (3150-0038), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

Section 31.11 of 10 CFR 31 establishes a general license authorizing physicians, clinical laboratories, hospitals, and veterinarians in the practice of veterinary medicine to possess certain small quantities of byproduct material for in vitro clinical or laboratory tests not involving the internal or external administration of the byproduct material or the radiation therefrom to human beings or animals. Possession of byproduct material under 10 CFR 31.11 is not authorized until the physician, clinical laboratory, hospital, or veterinarian in the practice of veterinary medicine, has filed NRC Form 483 and received from the Commission a validated copy of NRC Form 483 with a registration number.
