Dear Ms. Gaskins:

As required by NRC 10 CFR 30.36(d), 40.42(d), 70.38(d) and 72.54 this letter serves to notify the Nuclear Regulatory Commission of Bruker Biospin's intention to close the facility at 4 Research Drive, Woodbridge, CT. Per instructions I would like to verify that the site is considered Group 1 for the purposes of decommissioning.

Please be aware that the only isotope that was purchased at this site as an unsealed source was ³²P. The last purchase of 250uCi's of ³²P was made on 4/9/2012 and all material from this purchase has been allowed to decay past 10 half lives. With regard to the remaining sealed ¹⁴C and ³H sources please advise me on how the final disposition of this material should be made.

For any other questions and/or instructions with regard to how to proceed please feel free to contact me directly at: 203-786-5663 or john.pizzonia@carestream.com.

Respectfully Submitted,

John Pizzonia, RSO
