Subject: Change to Closure Plan - ATWS D3 Question and RAI 512, Question 07.08-50

Amy,

Based on the communication provided on January 22nd below, we are not planning to address the ATWS follow-up NRC staff question in a supplemental response to RAI 512, Question 07.08-50 as originally described in the Closure Plan (the I&C portion in Section C.2.1 and in Table C-1 of NRC Letter NRC:12:071) dated December 19, 2012. The final response to RAI 512, Question 07.08-50 was sent in Supplement 4 on July 20, 2012. The ATWS issue does not appear to be related to an Open RAI. Therefore, AREVA has requested a new DRAFT RAI as the appropriate mechanism to identify and communicate the issue. I wanted to notify you of this change to the Closure Plan.

If you have questions or wish to discuss further, please give me a call.

Thanks,
Dennis

Subject: ATWS D3 Questions - Request for RAI to define issues
Importance: High

Amy and Mike,

Over the past several months, we have had several calls on the ATWS issue with NRC staff but have not been able to come to closure on exactly defining the issue and question. The issue does not appear to be related to an Open RAI. Therefore, we request and believe a new DRAFT RAI is the appropriate mechanism to identify and communicate the issue.

Thanks,
Dennis

Dennis

Please forward this message to Billy Gleaves regarding the questions that he forwarded in the email below.

Billy

The questions in the attachment "ATWS D3 Summary from 12-18-2012 conf call" are not related to the AREVA position on 10 CFR 50.62(c)(1) that we agreed would be the subject of the next telephone call. The questions are all related to the issue of using a portion of the D3 analysis to represent an ATWS analysis. As we discussed today (1/14/2013) AREVA is not proposing at this time to use any of the D3 analysis as an ATWS analysis. Please ask the staff to review the first 6 slides in the December 18, 2012 presentation and provide any feedback on the AREVA position in those slides relative to compliance with 10 CFR 50.62(c)(1). This will then be the subject of our next telephone call.

Thanks

Jerry
