Subject: Dam IN
Attachments: IN Dam Failure 12-16-09.doc

Lois and the Jeffs,

Melanie stopped by last night and requested a polished-up dam IN by today instead of January 6. I have attached a change that should address Mark Cunningham's comments. However, it is not a complete discussion of the adequate protection question Melanie presented in her Email today. The Oconee adequate protection question itself is beyond the IN scope and needs further discussion. We should get our position setteled first thing in the Morning.
