Subject: Oconee Backfit

Importance: High

Meena called yesterday requesting a discussion on the Backfit Documented Evaluation. She and George want to meet with Lois and me, I put her off until later this week. However, she mentioned that there had been a recent internal telecon on the backfit/order - I don't know who participated - at which it was decided that instead of the order, management was leaning towards a new letter. She also indicated that there was a plan to meet with the ET on this topic, I assume to get buy in on the new letter approach.

In any case, unless directed otherwise, I'll continue to work on revising the Backfit Documented Evaluation by COB today.

Jeff
