(NOTE: This will be used as the Documents Title in ADAMS)

Middlesex Hospital had requested the use of Yttrium-90 TheraSpheres in a license amendment request dated June 7, 2012, under mail control number 577731. The action ended up being voided because the proposed authorized user required additional training from Nordion. The current action under mail control 579928 provides the requested information for Dr. Takahashi and reopens the request under mail control number 577731. I confirmed with Joan Merton, the Middlesex Hospital RSO, that all statements and commitments made in their letters dated June 7 and August 28, 2012 are still applicable.

Action Required: Process license amendment.
