Subject: RE: Revised Advance RAI 575, Question 06.02.01-105 per 2/21/13 Conference Call

Amy,

There is no AREVA Proprietary information in this revised new Draft RAI. We request that the NRC consider a slight rewording per our telecon:

~~A description of the methodology should be provided in FSAR, and the~~ The FSAR should be updated to ensure the interpretation of the surface area's and the thickness data provided in the table is clear and consistent with previous RAI response.

We do not believe that a detailed discussion of the methodology is appropriate for the FSAR. However, we understand and agree that the reviewer should be able to understand the basis for the inputs and confirm consistency with the ITAAC for the surface area. We would suggest striking the first part in the sentence listed above.

The RAI question is clear and you can send to us as Final – but ask that you consider the suggestion above.

Thanks,
Dennis

Subject: RE: Revised Advance RAI 575, Question 06.02.01-105 per 2/21/13 Conference Call

Need to know if the subject RAI is clear to AREVA before I issue it as FINAL.

Please advise.

Thank you

Amy

PROPRIETARY INFORMATION

Dennis,

Attached is the John McKirgan-approved text of the advance RAI 575 Question 06.02.01-105 as we discussed by teleconference yesterday.

- 1) Please inform us if the attached advance RAI contains proprietary information
- 2) If the attached advance RAI is accepted by AREVA, please let us know so we can finalize the RAI.

Billy

Subject: Revised EPR Heat Sink RAI

John,

As the agreement we reached from this morning's conference call, I was requested to revise the RAI. Attached please find the revised RAI. Basically, I added the last two paragraphs to exemplify and clarify what we expect. The Project plans to send it to AREVA for their understanding by the end of today. Project promises to AREVA that the revised RAI will be put in the eRAI system tomorrow.

Your approval of the attached revised RAI would be appreciated.

Peng
