Subject: thanks

Jeff, thank you so much for your presentation to us on the dam failure frequency...I know that you have done a lot of work and the presentation was very helpful for us to understand how you came up with the risk number. Thanks again and we will be in touch with you and Lois if we have any questions. Also, do you know when you all plan to finalize and send us the backfit/adeq protection input on the risk number? thanks!
