**Name of Licensee:** Pennoni Associates, Inc.**Name of Participant(s):** Quinten Davis, Jr., RSO  
Scott Wilson, RI Health Physicist**Telephone No.** 610-392-6294**Subject:** RAI License Amendment Request Letter dtd January 29, 2013.

Mr. Davis was contacted to ask questions about the license letter in the subject line above. In the letter, the licensee requested a change of address. The licensee was asked about the previous address and whether or not that location had been authorized for release by the Commonwealth of PA license (PA-1064). The letter requested removal of CPN International, Inc. Model No. CPN-131 from the license. The license does not authorize this source.

Mr. Davis stated: Pennoni had submitted an application for address change to the Commonwealth and had supplied sealed source leak test records. He said that the licensee conducts leak tests at the required intervals and that no leaking sources have ever been identified. The licensee has already moved to the new address and vacated the previous location. Mr. Davis said that Pennoni does not store licensed material in NRC jurisdiction, only in Commonwealth of PA jurisdiction. Mr. Davis also stated that the request for removal of the CPN Model CPN-131 from the license was in error.

I informed Mr. Davis of the requirement to request regulatory approval prior to vacating authorized storage/use locations and Mr. Davis said he was unaware of the requirement as this was the first physical address change since he became RSO.
