Meena, it's my understanding that we've put a version of this document into concurrence. Would you please send me a copy of this latest version. Thanks.

Jeff

Jeff,

Thank you so much for all of your help with the Oconee adequate protection backfit documented evaluation. Your document was very-well written and we really appreciate all of your help and support in developing the backfit evaluation.

Thanks again,

Meena

Meena, here is the latest version. I haven't touched this document since the end of December. The document is not finished and is not clean and would need additional work before it would be ready for concurrence.

Jeff

Hi Jeff, sorry, I've been meaning to contact you...it's been busy trying to play catch up from last week, however, I hope that you made it okay thru all that snow. Jeff, I'm trying to finalize the backfit document and I know that you had revised it a bit...do you mind sharing your comments...I've attached the version I had initially sent to you, which includes slight mods to what you had originally developed...pls let me know if you have a few mins to discuss..thanks so much.

Also, I will schedule an OG meeting for next week to get everyone up to date on what is going on with this issue.
thanks,
Meena

Jeff, could we pls discuss...

Your writeup was great...thanks. I just updated a few sections. However, I need to talk to you and George about the items in red font, basically how we want to address overtopping and seismicity...I included our basis for taking then off the table, but not sure how that impacts the risk agreement.

Thanks,
Meena
