Lois, I've given feedback to both Meena and to George Wilson on these documents. It is my understanding that both documents are with Meena for revision. She indicated today that she plans to work on the JCO this week. The latest copies of both which are attached. Also attached are my comments on the JCO.

I've not yet begun to work on my slides for the briefing.

Jeff

Subject: current status of Oconee
Importance: High

Jeff,

Please refresh my memory, what is the status of the Oconee justification for continued operation and the adequate protection writeup supporting the Order? Could I get copies of these 2 latest?

Second, have you made any progress in summarizing our issues such that we could go to the commissioners' TAs?

Lois
