Yep, as you said she deserves credit for this.

I can make it to any meeting after 10:30AM or so on Wednesday. If the meeting is late on Wednesday, I can still try to make it even if it goes beyond 4:30PM.

She's trying to setup a meeting for Wednesday afternoon with DE, DORL and DRA management to talk about my concerns. I've been asking her questions about what we have received from Duke and she's forthcoming with what information she's aware of. Can you make a late Wednesday meeting?

What's going on with this? Is Meena trying to resolve the concerns?
