Subject: RE: Action: Options paper for Oconee flood concerns

I've had some discussions with Rick and Len on the options (very general). Looks like initial takes on option preference would be 3, 2, then 1.

Importance: High

Jonathan, attached is my first draft of the options paper, which we will use to talk to our management about the path forward. Nancy has looked at it. Please let me know if we need to reword any of the options, or add others. Also, if you think of any pros and cons for each option, that is our next step. We would appreciate some feedback before you leave today. Thanks.
