Amy,

AREVA NP Inc. letter NRC:13:007 dated January 31, 2013 provides a technically correct and complete final response to the two remaining questions in RAI 349. AREVA NP considers some of the material contained in the response to be proprietary. An affidavit is provided, as required by 10 CFR 2.390(b), to support the withholding of the information from public disclosure. Proprietary and non-proprietary versions of the enclosure to this letter are provided separately.

The following table indicates the respective pages in the response that contain AREVA NP's response to the subject questions.

Question #	Start Page	End Page
RAI 349 — 19-334	2	18
RAI 349 — 19-335	19	29

This concludes the formal AREVA NP response to RAI 349, and there are no questions from this RAI for which AREVA NP has not provided responses.

AREVA NP is in the process of updating the source term calculations for the Modular Accident Analysis Program (MAAP), which may have a minor impact on the source term results presented in the response to Question 19-335. The conclusion of the response, that MAAP4 analyses are in strong agreement with MELCOR for the first 24 hours, is not expected to be impacted, and AREVA NP is not anticipating the need for a revision to RAI 349, Question 19-335.

Attached please find the subject requests for additional information (RAI). A draft of the RAI was provided to you on December 18, 2009, and discussed with your staff on January 19, 2010. Draft RAI Questions 19-333 and 19-335 were modified as a result of that discussion. The questions in this RAI are OPEN ITEMS in the safety evaluation report for Chapter 19 for Phases 2 and 3 reviews. As such, the schedule we have established for your application assumes technically correct and complete responses prior to the start of Phase 4 review. For any RAI that cannot be answered prior to the start of Phase 4 review, it is expected that a date for receipt of this information will be provided so that the staff can assess how this information will impact the published schedule.
