Re: **USNRC Materials License No. 13-02128-03 Close-out Survey**

To Whom It May Concern:

Please let this correspondence serve as notification of the close-out survey which was completed on **December 11, 2012, at the Franciscan St. Francis Health Hospital located at 1600 Albany Street Beech Grove, IN 46107.** Based on the results we are asking that you remove this location from our license.

Item 1: An area survey was completed which show all radioactive materials were removed, where they were either previously stored or used. (Please refer to attached diagrams).

Item 2: An area survey for removable contamination was completed where radioactive materials were previously stored or used. (Please refer to attached diagrams).

Item 3: All radiation signs or labels have been removed where radioactive materials were previously stored or used.

Item 4: Persons completing survey: **Mr. Berry Stewart, MS., Medical Physicist, RSO, St. Francis Franciscan Health, Edward E. Wroblewski, MA, DABSNM, Medical Physicist, Photon Measurements Plus and Becky Hoberty, BS, Health Physicist, St. Vincent Hospital.**

Item 5: The date the survey was completed: **December 11, 2012**

Item 6: The instruments used for exposure rate measurements and for analysis of the wipes:

Survey Instrument:

Ludlum Survey Meter
Model: 14C
S/N: 122274
Battery Check: Acceptable
Source Check: 3.5 mR/hr

Analysis Instrument for Wipes:

Well Counter:
Ludlum 2200
S/N: 198663
Conversion factor 1.18 dpm/cpm
MDA: 74 dpm, 0.00003 µCi

Item 7: Background Reading: **0.03 mR/hr**

Background Counts: **356 dpm**

Item 8: Date of Survey Instrument Last Calibrated:
November 27, 2012

Item 9: Identification of areas and Results of Survey:

All areas described below were measured with the Ludlum GM survey meter noted above. All observed and recorded values were ≤ 0.04 mR/hr without the presence of any interposed shielding.
