PADUCAH GASEOUS DIFFUSION PLANT - DOCKET NUMBER 70-7001**

Dear Mr. Van Namen:

This refers to the teleconference meeting conducted at your request on March 6, 2013, at 10:00 a.m. (EST). The meeting's purpose was to discuss the actions from Confirmatory Orders EA-06-140 and EA-11-056 (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML092220214 and ML112301332, respectively), and the results of the Independent Safety Conscious Work Environment (SCWE) follow-up assessment. Enclosed are a list of attendees. The Certificate holder's presentation handout can be found in ADAMS under Accession Number ML13064A144.

The Certificate holder presented actions taken because of Confirmatory Orders EA-06-140 and EA-11-056, and the results of the SCWE follow-up assessment. The Nuclear Regulatory Commission (NRC) indicated its intention to provide verification of corrective actions taken because of the recommendations of the SCWE follow-up assessment report. The NRC follow up will be covered by inspections performed under the resident inspection program.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
