**Subject:** US Fukushima-style reactors need filtered vents

Dear Secretary Annette Vietti-Cook please forward to:

Chairwoman Allison M. Macfarlane  
Commissioner Kristine L. Svinicki  
Commissioner William D. Magwood, IV  
Commissioner William C. Ostendorf  
Commissioner George Apostolakis,  
United States Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Sirs,

[I write to you in an appeal to promote the protection of the public health and safety in communities surrounding the thirty-one \(31\) General Electric Mark I and Mark II Boiling Water Reactors similar to those that exploded and melted down at Fukushima Daiichi, Japan on March 11, 2011.](#)  
[In the coming weeks, the Commission will be voting on whether or not to affirm the NRC staff's professional judgment \(SECY 2012-0157\) to require by Order that the operators of these vulnerable reactors install on their containment structures a severe accident capable hardened vent with a high-capacity radiation filter.](#)  
[I urge you to support the installation of the filtered vent on all Mark I and Mark II reactor containments.](#)  
[Thank you](#)  
[Martina Patterson, Germany](#)
