In the Matter of
CROW BUTTE RESOURCES, INC.
(License Renewal for the In Situ Leach Facility, Crawford, Nebraska)
Docket No. 40-8943; ASLBP No. 08-867-02-OLA-BD01

Dear Administrative Judges:

In its Order dated January 8, 2009, the Atomic Safety and Licensing Board (“Board”) directed the NRC staff (“Staff”), commencing on January 15, 2009, to tender each month “a short report advising as to whether the estimated dates for issuance of the final [Safety Evaluation Report (‘SER’)] (predicted for summer/fall of 2009) and final [environmental review document] (predicted for December of 2009) have changed or become more definitive.”

By letter dated January 2, 2013, the Staff informed the Board and the parties of the public availability of the SER. The document can be accessed electronically via ADAMS Accession Number ML103470470.

The Staff now expects to issue the final environmental review document by April 26, 2013. The Staff notes, however, that there is a possibility of further delay in issuing the environmental review document due to the complicated nature of the Section 106 consultation activities.

In keeping with the Board’s mandate, the Staff will tender its next monthly status report by April 16, 2013.

Respectfully submitted,
