Attention: Mr. David Matthews, Director  
Division of New Reactor Licensing

**Subject:** Notification of the APR1400 Design Certification Project Manager Replacement

With this letter, I would like to inform you that Dr. Moon-Ghu Park is leaving since he has become a professor at a university, and Dr. Myung-Ki Kim has been assigned to the new Project Manager (PM) of the APR1400 Design Certification (DC).

Dr. Kim has been working with the APR1400 DC application as the director of General Design Management since the early stage of the project. He is a well-qualified leader with over thirty-year experience in design and operation in nuclear power industry. I am certain that he will lead the project to submit DCD application on schedule.

Dr. Kim can be reached at +82-42-870-5740 or at [kimmk89@khnp.co.kr](mailto:kimmk89@khnp.co.kr). Please update mailing list and contact him if you have any questions or comments.

As previously stated, our schedule is to submit DCD application in July 2013. We will do our best to meet the targeted schedule with our new PM.

Sincerely,

Byung-Oke Cho  
Executive Vice President  
Safety & Technology Division  
Korea Hydro & Nuclear Power Co., Ltd
