Corvallis, OR 97330

SUBJECT: TRANSMITTAL OF RELAP5 ASSESSMENT MODELS AND CODE  
MODIFICATIONS TO NUSCALE POWER

Dear Dr. Welter:

In a letter dated March 12, 2013, (Agencywide Documents Access and Management System (ADAMS) Accession No. ML13077A413), the U.S. Nuclear Regulatory Commission (NRC) granted permission to NuScale Power to receive the subject RELAP5 information. On March 13, 2013 (ML13077A413), NuScale Power, via email, agreed to the terms of receipt identified by the NRC in the letter mentioned above.

As a reminder, NuScale Power should use all reasonable efforts to safeguard the RELAP5 assessment models and data, and to keep it contained using a standard of care no less than the degree of care that NuScale Power would be reasonably expected to employ for their own similar information. In particular, NuScale Power should not directly or indirectly disclose, allow access to, transmit, or transfer the RELAP5 assessment models and data to a third party without NRC's prior written consent. NuScale Power has permission to disclose the RELAP5 assessment models and data only to those NuScale Power employees and NuScale consultants who have a need to know. Prior to disclosing the RELAP5 assessment models and data to such NuScale Power employees and NuScale Power consultants, NuScale Power should issue appropriate instructions to them to satisfy the points described above and to obtain their written agreement to receive and use the RELAP5 assessment models and data on the same conditions as specified in this letter.

The NRC has collected the RELAP5 assessment models and data as a file in the attached CD.

K. Welter
