SUBJECT: CALLAWAY PLANT - NRC INITIAL OPERATOR LICENSING  
OPERATING EXAMINATION APPROVAL 05000483/2013301

Dear Mr. Heflin:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Callaway Plant.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Larry Wilhelm, Operating Supervisor. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the operating test portion of the examination. The NRC staff will administer the operating tests during the week of March 18, 2013. As of the date of this letter, we have not authorized the written examination. The written examination will be approved when the examination review is completed.

Please contact your Chief Examiner, Brian Larson, at (817) 200-1172, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

A handwritten signature in black ink that reads "Vincent Gaddy".

Vincent Gaddy, Chief  
Operations Branch  
Division of Reactor Safety
