Name of Licensee: Mountaineer Contractors, Inc.

Name of Participant(s): Robert E. Leigh, Vice President
Scott Wilson, RI Health Physicist

Telephone No. 304-842-8691

Subject: Request for Additional Information; Amendment Letter dtd 03/13/2013

Licensee was called to request additional information regarding the license amendment letter dated 03/13/2013. In the letter, the licensee requested the license be amended to increase the possession limit on the license to allow for the possession and use of four portable gauges. The letter did not state the manufacturer, model, sources, or use for the gauges. The licensee said the additional gauges and uses are identical to the gauges already authorized on the license.

The licensee also noted that he would like to add a storage location in Wheeling, WV, and that he would like to request a change in RSO. I informed Mr. Leigh that the amendments would require a request in writing. Mr. Leigh said he would generate the letter and fax it to RI LAT today.

The licensee requested the licensing action be expedited because the licensee had inadvertently exceeded the possession limit on the license. This licensing action was initiated in response to a routine NRC inspection which is in progress. Inspection Record 2013-001.

Action Required: Save this telephone record in ADAMS referencing the Docket, Mail Control, and License Nos. above.
