STATEMENT OF INTENT

As Vice Chancellor of Administrative Services of the University of Missouri Columbia, I exercise express authority and responsibility to request from the Board of Curators of the University of Missouri funds for SAFESTOR decommissioning activities associated with operations authorized by the U.S. Nuclear Regulatory Commission Amended Facility Operating License No. R-103 and the Missouri University Research Reactor (MURR) Broad Scope Radioactive Materials License No. 24-00513-39. This authority is established by the Collected Rules and Regulations of the University of Missouri. Within this authority, I intend to request that funds be made available as necessary for the SAFESTOR decommissioning of the properties owned by the University of Missouri. The current estimate of total decommissioning costs (2013 \$\$) over the 30 year SAFESTOR period is \$58.9 million. I intend to request and obtain these funds over this period sufficiently in advance of required activities to assure timely funding of required activities.

A copy of the University of Missouri Collected Rules and Regulations Section 70.010 is attached as evidence that I am authorized to represent the University of Missouri in this transaction.
