

COMMENTS ON
RONAN RLL-1 RELATED DOCUMENTS
SUBMITTED IN RESPONSE TO NRC EMAIL
RECEIVED NOVEMBER 20, 2007

I have chosen to include 9 documents. These include the four documents referenced on the current SS&D certificate, three documents referenced by the oldest referenced document, and two previous SS&Ds, that may have historical value.

To clarify the choices of attached documents, the following comments are offered:

- The four requested documents included are also the four documents listed on the SS&D certificate.
- Two amended, but not current, SS&Ds are included of possible historical value.
- The oldest document referenced on the SS&D (Letter dated Jan 19, 1999) is a letter from Ronan answering questions raised by Kentucky in a Kentucky letter dated December 22, 1998.
- The Kentucky letter dated December 22, 1998 is one of the included documents.
- A Ronan letter is included, dated November 17, 1998, and referring to a Kentucky letter of November 6, 1998 requesting more data. This Ronan letter also refers to a meeting. No document from the referenced meeting was found.
- The Kentucky letter dated November 6, 1998 is included. This letter requests more data, and refers to the original application dated October 10, 1998.
- The original application of October 10, 1998, referred to in the Kentucky letter dated Nov. 6, 1998, was not found. However, complete applications appear to be incorporated into the subsequent Ronan supplied documents.
- A few other letters and documents, that appear to have no bearing on these discussions, and not referenced by the attached documents, were found in the file but not included in the attached materials.

Please contact me with any questions or comments.
