Hello,

The NRC is preparing to replenish expiring stockpiles of KI tablets. According to our records your State has 100,000 (65mg) tablets with lot numbers TU801A expiring in October of 2014 and 566,930 (130mg) tablets with lot numbers NDC 51803-00-03, YXQ7, expiring in September 2014. We are no longer supplying (130mg) tablets and will replace stockpiles with (65mg) tablets (2 per adult and 1 per child). We will replace your (130mg) tablets with 1,133,860 (65 mg) tablets. The NRC will replace the expiring stockpiles during fiscal year 2014. At this time, it is uncertain if NRC will be able to support any requests for increase tablet quantities. The tablets will be ordered to ensure timely replacement of expiring stockpiles. If your State wishes to participate in the NRC KI tablet replenishment, please respond with the delivery address, point of contact (including phone number) and any special delivery requests you have no later than May 31, 2013. Please note these tablets will not be shipped until 2014 to ensure timely replacement of your States expiring KI stockpiles. We will notify you prior to shipment of the tablets to enable you to make any preparations necessary for receipt of the shipment.

Thank you so much for your prompt attention to this matter. I look forward to your response. Please let me know if you have any questions.

Thank you,  
Annette Stang

Hi Amanda,

At this time we are unable to promise additional tablets for population increases. I would go ahead and send your request for the total amount of tablets that you would like to receive. If something in the future changes, we will let you know if it would be possible to send additional tablets.

Replenishment for your tablets expiring in 2014, would need approximately 10 pallets (dimensions below) but please know these can be double stacked if your space allows.

### **Packaging & Pallet Information**

20 Tablets per box  
160 boxes (of 20 tablets) per carton  
1 Carton contains 3,200 tablets, 15 ½ by 11 x 9  
Pallets are 40 x 48 x 42  
Each pallet weighs 344 pounds  
40 cases of Thyrosafe per package

Pallets can be double stacked.

Please go ahead and send in your request and let me know if you have any additional questions.

Thank you,

Annette Stang

Annette- NC will want replenishment. We are preparing our request because we are going to ask for more. We have had significant population increases in the affected areas. Can you tell me about the footprint? If you can tell me what the amount below looks like, i will use that to estimate. We are trying to also get our storage lined up and that takes us a long long time. Thanks-Amanda
