**Cc:** STPCOL; 'wemookhoek@stpegs.com'  
**Subject:** STP - Ziada's Comments on WCAP 17256, 17370, and 17385  
**Attachments:** 17385; 17370; 17256

John, Scott,

Attached for your use and for Wednesday's telecom are markup pages by Dr Ziada (and same sheets from previous revisions of the same WCAPs).

His concerns is the change of using PT to measure loads on the dryer and SG to benchmark bias and uncertainty to the use of SG for load prediction. According to Dr Ziada, the "new" approach is exactly what he didn't want during the Nov 2012 audit discussion. I hope we can clarify the issues on Wednesday. My concern is the July ACRS data may not be achievable.

Regards

Tom Tai
