Reference: Letter from Christopher M. Fallon (Duke Energy) to NRC Document Control  
Desk, Supplemental Information Regarding Environmental Review,  
Ltr# WLG2013.03-01, dated March 13, 2013

In the referenced letter, supplemental information pertaining to plant relocation, site specific grading changes and related items was provided to NRC. As described within Enclosure 4 of the letter, a cultural resource survey was conducted by Brockington in February 2013 to ensure the Lee Nuclear Site was designed to avoid significant cultural resources. Enclosed are copies of Brockington's cultural resource survey report.

The survey did not identify significant cultural resources. Thus, this information is not considered as confidential.

If you have any questions or need additional information, please contact Robert Kitchen, Nuclear Development Licensing Director, at (704) 382-4046.

Sincerely,

Christopher M. Fallon
