Mr. Tillberg,

This is a response to your e-mail below.

We note that the correct designation of your device is "Itemiser 3 Enhanced." We will make the changes in the device registration certificate NR-0399-D101-E and in your exempt product distribution license No. 20-23904-01E. We will send you the corrected copies. In the meantime, please contact me again if you have further questions.

Subject: RE: Amendment request for MDI Itemiser 3 Enhanced

Dear Mr. John Jankovich,

On November 1, 2012 I submitted an amendment request to have the device "Itemiser 3 Enhanced" added to the Morpho Detection, Inc. NRC Exempt License 20-23904-01E. The amended license and the Sealed Source and Device Registration dated March 14, 2013 has the device listed as "Itemiser 3e". I contacted Shirley S. Xu who indicated that the Sealed Source and Device Registration needs to be adjusted to read Itemiser 3 Enhanced before she can get the license changed. Could I please get both documents changed to read Itemiser 3 Enhanced rather than Itemiser 3e? I tried to attached the two documents but they were unable to be sent due to the size as I received an undeliverable notice. Please let me know if additional information is needed.

Best Regards,

Aric Tillberg
